Policy No. 3540
Students

CLASSROOM PARTIES/SOCIAL FUNCTIONS

CLASSROOM PARTIES

The most important resource available to student and teacher is time. Time devoted to classroom parties that are completely unrelated to appropriate learning objectives is not authorized by the School Board. However, if the classroom party is clearly related to an approved educational objective, such parties may be authorized, but limited to the last one hour of the school day, or as approved by the building principal. The principal may authorize a maximum of three parties during the school year.

SOCIAL FUNCTIONS

These activities are desirable for they help students to develop a normal and healthy respect for each other as fellow human beings.

1. All dances and parties must have the prior approval of the principal.
2. Only one alumni dance may be permitted a year.
3. Students and student organizations may not sponsor public dances.
4. The principal shall draw up such rules and regulations as to guarantee that dances and parties are well chaperoned and in good taste.
4. Social functions shall not be sponsored by the Anacortes School District when they occur off of school property, unless the school board has given prior approval.
