

FIRST LEGO LEAGUE JR.

It's never too early to discover STEM!

Through exploratory research, hands-on construction, teamwork, imagination, and fun with LEGO elements, FIRST® LEGO® League Jr. challenges teams of up to six kids to explore a real-world scientific concept, then build a motorized model and develop a Show Me Poster to illustrate their journey of discovery. Throughout the season, adult coaches provide guidance and inspiration.

What if you could build a better world? Where would you begin?

More than ever, we must come together to innovate and solve problems. In *FIRST*, you are part of a thriving community brimming with inspiration, creativity, and hope for a stronger, more sustainable future—one that's built better together. BOOMTOWN BUILDSM Challenge now available.

The Anacortes Robotics Booster Club (ARBC) sponsors FLL Jr. teams in the Anacortes School District. Teams can form in the Fall or Spring – pre-register on the ARBC website to get connected with other parents and students interested in participating this season.

Pre-register today at
